### Stays Awake 95 Hours

Cape Town.- Pat Greef, 36-year-old engine driver, won a "stay-awake" marathon in a store window by remaining awake for 95 hours. He fought off sleep by reading a thriller called "The Sleeper."

## Vera

Vera, Nov. 24.- "Give thanks to the Lord for He is good, his mercy endureth forever."

We are all looking forward to Thanksgiving. This day has been celebrated for many years. The first Thanksgiving in America was in 1619. Captain John Woodcliffe celebrated it for his 13 colonists in Virginia at the Berkeley Plantation on the banks of the James. It was a religious service. I hope we may all thank the Lord for His many blessings. We, the people of the United States are surely a blessed people. We have had a prosperous year.

We have certainly had a beautiful fall. So warm, though there was a little ice this morning, the first of the season.

The hunters are not killing so much game as usual, but they enjoy the hunting season.

Mr. and Mrs. L. H. Watson visited in the home of Mr. and Mrs. T. C. Harvey on Saturday night.

We are sorry to hear of the passing of Mr. David Ferguson, and extend sympathy to his family.

Rev. Charles Addington being away on Sunday, the Rev. W. M. Black preached a fine sermon at New Hope Baptist Church.

We wish all of our readers a happy Thanksgiving.

### KNOW THE WEATHER

By E. H. Sims

**How fast do cold fronts move across the country? Why do they "sneak in" on us, on some occasions, almost without warning?**

Cold fronts move faster than warm fronts but they usually don't travel more than thirty or thirty-five miles on hour, eastward.

The reason they come in with a bang, and unexpectedly, quite often, is that they arrive on the surface before they appear on the weather maps below. The leading edge of a cold front moves fast, and is usually very steep. The weather ahead of the front, as we have come to know it before, is found on the surface of the earth, and starts to rise in the direction from which the cold front is coming.

Therefore, because the cold front moves fast, and because the weather ahead of the front is usually very steep, it can be felt and see in advance of its arrival in comparison with the warm front which arrives over a region much slower and often with little turbulence.

Play safe — don't

# ANAEROBICUL

FOR

**SEPTIC TANKS CESSPOOLS GREASE TRAPS**

SOLD UNDER MONEY-BACK GUARANTEE

STARTS Septic Tank and Grease Trap Action STOPS Grease Trap and Septic Tank Odors; CLEANS Clogged Drain Field Lines; CLEANS Clogged Garbage Grinders.

**The Most Valuable Part of Your Tank Is Gone When You Have It Pumped!**

ANAEROBICUL will hasten the seeding off of new septic tanks by establishing action much sooner than will occur by natural processes.

If your septic tank is overloaded, ANAEROBICUL, by speeding action, will prolong the need for placing a new tank in operation. The culture would have to be introduced into the tank periodically, about every three months.

If your digestive system, septic tank or cesspool is working properly, not causing odors draining good—you do not need ANAEROBICUL or any product sold for the aid of digestion.

**This is important! When someone calls at your home with a truck and tells your tank is almost full, that is correct. It has to be full to be filtering properly, and the most harmful thing you could do would be to have it pumped, for pumping destroys the most valuable part of your tank. Pumping doesn't clean your lines or eliminate odors and you pay an enormous price for the harm done.**

The most harmful substance you can put in your lines to open them are highly caustic chemicals which can be found on the market ranging in price from 10 to 35 cents a can under trade names which most people are familiar with. Proper bacteria reactions open lines and eliminate odors, also keep TANK FILTERING properly.

Rev. William Moon, of Franktown, recently visited his home people.

Roy Moon and daughter, Martha visited his home people Sunday.

### BUY TB CHRISTMAS SEALS

The traditional Seal Sale is the only source of funds for the TB-fighting activities of the Southside Virginia Tuberculosis Association. The 52nd annual Christmas Seal Sale began on Friday, November 14, and will continue through December. Tuberculosis is a major health problem in the nine counties served by the association. Last year there were 411 cases in the area, 250,000 in the nation.

The TB death rate has fallen dramatically — only 8 deaths in the area in 1957 and 13,260 in the nation — primarily because of modern improvements in diagnosis and treatment of patients.

Prevention of TB has not been so successful. There were 57 new cases in the area last year, about 87,583 in the nation.

The Christmas Seal campaign against TB is aimed chiefly at preventing the spread of the disease through such means as the activities of the Southside Tuberculosis Association.

## Vera

Vera, Nov. 26.- "Let us therefore come boldly unto the throne of grace, that we may obtain mercy, and find grace to help in the time of need." Heb. 4:16.

Mr. and Mrs. Jim Scruggs and son, Dewitt, of Roanoke visited Mr. and Mrs. John Scruggs last week.

Mr. and Mrs. John Terrence, of Lynchburg visited their daughter, Mrs. Joe Megginson over the week-end.

Mrs. Kate Gunter and Josephine were Sunday dinner guests of Mr. and Mrs. Percy Garrette.

This community was saddened by the death of Mrs. Tom Gilbert.

The W. M. S. of Liberty Chapel Church will hold its Lottie Moon Christmas program at the church Dec. 3. All members are urged to be present.
